# Homework Club

WITH MRS. BOUYEA

Homework Club is a place for your child to complete their daily homework assignments in a quiet, supportive, teacher-supervised environment. Study skills, organization and efficient work habits are practiced.

All finished assignments are checked for accuracy as time allows. Students then make any necessary changes to their papers. Tutoring is offered when a child needs help understanding a concept or assignment directions.

- Children may read, study for tests, do an activity from the class "Extra WorkChallenge Folder," work on a puzzle or draw when they have finished their homework.
- Some parents wish to send additional work such as Kumon. There is never time for this extra work to be corrected although help understanding the directions will be given if needed.

If your child likes to listen to Pop music, this is the class for them to create and explore their own dance movements. A large part of Hip-Hop dance is about creativity, improvisation, and letting the music move you. During the 45 minute class, children will move to music they love, through simple choreography. The moves encourage body awareness, as well as improve balance, coordination and control. This class is a great way to encourage creativity and expression for children.

**About the Instructor:**

With 10 years of dance teaching experience, Sisi has a background in ballroom dance and hip hop and is currently a certified Pure Barre teacher and teaches hip hop at Fan Yang Dance Studio in San Bruno.
